ABOUT US

ABOUT US

Click Gaming is a freelance for hire company based out of Oklahoma with 20+ years of Tournament Organizing, building and operating brackets, writing rules, handling disputes, and paying out prize pools. We specialize in both online and physical events for all major Esports titles.

02

CAPABILITIES

What Makes Us Different.

PROBLEM

There is too much dead time between games during tournaments.

Depending on certain titles dead time between match can be anywhere from 10-30 minutes between each game!

This leaves huge gaps in time for watchers to leave.

OUR SOLUTION

We have developed **custom software** that give us the ability to **switch between multiple games (3 to 6 different games)** with each game having different POVs, **stream to twitch**, youtube, and facebook in resolution of 1080p 60 frames per second. Custom Software for **Name overlays** for each game along with map counts, **switching games and run commercials**.
